ALEMANI

THE NEW GREEN IN YOUR URBAN JUNGLE

THE FUTURE IS GREEN

ALEMANI BRINGS YOU

BACK TO NATURE

The green trend is here to stay! Botanical prints, a collection of green houseplants and an abundance of natural materials - bringing nature indoors looks set to remain popular. The new, green, large-flowered disbudded chrysanthemum Alemani is a perfect fit for this trend. Its striking green colour of the flower forms a magnificent colour highlight in the urban jungle typical of so many modern interiors today.

Additionally, Alemani from Deliflor Chrysanten makes a welcome addition to the cut flower range of green disbuds. A pompon with strong stems and an outstanding vase life - a top quality choice for every arrangement or bouquet!
